

## Fun Day Friday

Fun Day Friday for 2008 is on the 30th May

As a combined Under Eights Week and Education Week celebration of learning, students and their families at the Infants campus, along and members of the community, participate in a morning of fun and exploration.

A huge variety of activities are on offer for all to enjoy, including sand play, obstacle course fun, painting, book readings, waterplay, and science activities.

Our local community clubs and services are also involved and provide exciting interactive displays.
