Home Head Lice Alert Notice

It has come to my attention that some students in the school may have head lice. I seek your cooperation in checking your child's hair and scalp.

To be sure, **keep checking every two days for ten days** after this time.

Please let us know that you have checked and how it went by completing the attached tear off **Action Taken Slip** and returning it to the school office.

If we all take action at the same time, it will help enormously to stop the spread of head lice.

REMEMBER

- We can all catch head lice.
- Children with long hair need to keep it tied back.
- Head lice are spread mainly through head to head contact.
- Mechanical methods can be used to control head lice.
- You need to check with Queensland Health Child Centre or your local pharmacist about whether chemical preparations are effective.

Thank you for your attention to this matter.

Deborah Driver
